## SPEAR-DUSTER

---

- CONTINUOUS APPLICATION
- NON - PRESSURISED HOSE

A small readily portable stoneduster that can be "speared" into a bulk bag or drum of dust and delivers it fast thanks to its properly engineered jet-pump.

Designed for 25NB. air supply, it will continuously discharge dust 30 metres or more via a 38NB. stonedust hose delivering with good density.

Unit has no moving parts.
