Rubber-backed **Ceramic Lagging**

Hard ceramic dimples grab rubber of your conveyor for geared drive-effect between conveyor belt and your pulley to eliminate belt slippage.

- Ceramic-embedded rubber strip
- >> Low wearing 10 x times life of rubber-only lagging
- Drive/non-drive
- » Maximum grip
- » In-field
- Optional brand with your logo
- Also in half-ceramic
- » Neoprene rubber backing for exceptional adhesion

Rectangular dimple

Arrow dimple

Smooth ceramic

For non-drive pulleys and difficult high wear applications
