

LAGGING... YOUR WAY

RUBBER | CERAMIC | POLYURETHANE

Brain Industries has 35 years experience in locally manufacturing lagging for Australian conveyor conditions. We style lagging to suit your specific needs.

- ✓ **Made to Order**
- ✓ **Branded with your logo (optional)**
- ✓ **Fast turn around**
- ✓ **Quality that keeps going**
- ✓ **Right first every time**
- ✓ **Australian-owned**

READY CAPACITY

- » 2 presses – each with 2 decks
- » 3600 X 600 plattens
- » Steam heated – 600 tonnes

NEOPRENE BACKING ON ALL LAGGING

- » Exceptional Adhesion
- » Accurate Thickness Tolerance

RUBBER / FRAS

- » Protects pulley – drive or non-drive
- » Thickness: 12mm 16mm 20mm

CERAMIC RUBBER

- » Ceramic-embedded rubber strip lagging
- » 10 x times life of rubber
- » Dimples give geared drive effect between conveyor belt and pulley for less belt slippage
- » Also in half ceramic

POLYURETHANE RUBBER

- » Highest abrasion resistance – DIN 35
- » For problem wear pulleys
- » Rubber backing for better adhesion

POLYURETHANE CERAMIC RUBBER

- » Order in your colour or shape & add your logo
- » Also in half ceramic
- » Rubber backing for better adhesion

HOT CAST POLYURETHANE

- » High resistance
- » Improved bond strength
- » Improved TIR

We welcome your enquiries
